Applicant: Guo et al.  
Appl. No.: 10/539,241  
International Filing Date: December 16, 2003  
Title: PRNA CHIMERA  
Attorney Docket No.: 290.0004 0130  
Pub. No.: 2008/0064647 A1  
Pub. Date: March 13, 2008

**COPY MAILED**  
**JAN 16 2009**

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on April 11, 2008, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains material errors on the front page of the publication wherein the benefit claim data is erroneously printed.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The error in the benefit claim on the front page of the publication is an Office mistake, but it is not a material mistake as required by 37 CFR 1.221(b). The error in the priority data is not a material mistake because it does not affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. The specification and claims were accurately published, thus one can read and understand the content of the application. Additionally, the correct information is found in the first paragraph of the specification.

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

The applicant is advised that a “request for republication of an application previously published” may be filed under 37 CFR 1.221(a). Such a request for republication “must include a copy of the application compliance with the Office’s electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i).” If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a “Pre-Grant Publication” and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Va. 22313-1450

A guide for filing a request for a Pre-Grant Publication may be found on the link below:
